

# SDP SOLUTIONS

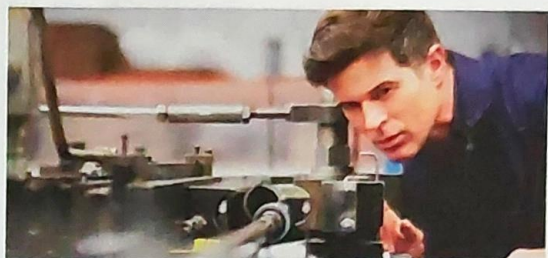

## SUPPORT THE FAMILY

The family is the foundation of society - a truth that many have forgotten. The SDP will defend and support traditional family life - in welfare, education, housing, tax and economic policy - for a happier, more prosperous and safer society.

## BACK BRITISH INDUSTRY

Our leaders don't care where goods are made which causes huge trade deficits - making us poorer. The SDP's industrial, energy and skills training programmes will re-build our manufacturing base. Trade policy will promote and protect British industry and secure well paid jobs.

## END MASS IMMIGRATION

Britain has become addicted to mass immigration. Instead of training our own young people we import labour - which lowers wages and harms social cohesion. We need to end mass immigration and build a safer, more united and harmonious society.

*Dear voter,*

I was born in Leeds and spent my entire childhood living in Headingley and going to local schools - so I'm not some fake Westminster import here to advance their career. I know and love Leeds. I've worked for leading law firms, and in medicine and psychology research. I have many years of experience in setting up and directing successful wellbeing and sporting initiatives.

I'll be here for the whole constituency. I will make sure that the people of Tinsill, Ireland Wood, Hawksworth, Kirkstall, Burley and Woodhouse have a champion in parliament. If you elect me as your MP you will see me regularly. I won't become an invisible man. The Headingley I grew up in had less vomit on the street. I'd take action to reduce antisocial behaviour and bring back self-respect. I want the whole constituency to be a vibrant and joyful place to live and start a family.

Unlike Labour and the others I - along with the Social Democratic Party - will not betray the wishes of the people.

I'd be honoured to serve as your MP.
